Financial Management Made Easy: Self-Tuition Approach, Concise Second Edition is designed for students in higher education, especially those in technical universities pursuing accounting and finance diplomas, HNDs or Bachelor's degrees. This book with 23 chapters provides a structured introduction to finance, empowering educators and learners alike to tackle key topics confidently. It features over 175 review questions and 125 worked examples to aid self-tuition, especially for exams. Each chapter begins with an introduction and objectives, followed by definitions and theoretical concepts, and concludes with trial questions, key terms, references, and a further reading list.

Covering the financial topics all nurse managers need to know and use, this book explains how financial management fits into the healthcare organization. You'll study accounting principles, cost analysis, planning, and control management of the organization's financial resources and the use of management tools, in addition to current issues. This edition also addresses future directions in financial management. Chapter goals and an introduction begin each chapter; each chapter ends with implications for the nurse manager and key concepts to reinforce understanding. Key concepts include definitions of terms discussed in each chapter. A comprehensive glossary with all key terms is available on the companion Evolve website. Two chapter-ending appendixes offer additional samples to reinforce chapter content. Four new chapters are included: quality costs and financing, revenue budgeting, variance analysis, examples, extensions, and caveats, and benchmarking productivity and cost benefit and cost effectiveness analysis. The new Medicare prescription bill is covered with its meaning for healthcare providers, managers, and executives. Coverage now includes the transition from the role of bedside or staff nurse to nurse manager and nurse executive. Updated information includes current nursing workforce issues and recurring nursing shortages. Updates focus on health financing and the use of computers in budgeting and finance. New practice problems are included.
