Le Petit Prince is a poetic tale with watercolour illustrations by the author in which a pilot stranded in the desert meets a young prince fallen to earth from a tiny asteroid. The story is philosophical and includes social criticism remarking on the strangeness of the adult world. It was written during a period when Saint-Exupéry fled to North America subsequent to the fall of France during the Second World War, witnessed first hand by the author and captured in his memoir *Flight to Arras*. The adult fable, according to one review, is actually an allegory of Saint-Exupéry's own life: his search for childhood certainties and interior peace, his mysticism, his belief in human courage and brotherhood, but also an allusion to the tortured nature of their relationship. Though ostensibly styled as a children's book, the Little Prince makes several observations about life and human nature. For example, Saint-Exupéry tells of a fox meeting the young prince during his travels on earth. The story's essence is contained in the lines uttered by the fox to the Little Prince: *On ne voit bien qu'avec le cœur. L'essentiel est invisible pour les yeux.* One sees clearly only with the heart; what is essential is invisible to the eyes. Other key thematic messages are articulated by the fox, such as *tu deviens responsable pour toujours de ce que tu as apprivoisé* (you become responsible forever for what you have tamed) and *c'est le temps que tu as perdu pour ta rose qui fait ta rose si importante* (it is the time you have lost for your rose that makes your rose so important). The fox's messages are arguably the book's most famous quotations because they deal with human relationships.

For over 70 years, this unabridged, illustrated, beloved classic beautifully reflects Saint-Exupéry's unique and gifted style. *The Little Prince* (Le Petit Prince) is a novella and the most famous work of the French aristocrat, writer, poet, and pioneering aviator Antoine de Saint-Exupéry (1900–1944). The novella is both the most read and most translated book in the French language and was voted the best book of the 20th century in France. The artwork in this edition has been restored to match in detail and in color Saint-Exupéry's original artwork, perfect for longtime fans and those meeting the Little Prince for the first time.

The series studies in computational intelligence (SCI) publishes new developments and advances in the various areas of computational intelligence quickly and with a high quality. The intent is to cover the theory, applications, and design methods of computational intelligence as embedded in the fields of engineering, computer science, physics, and life science, as well as the methodologies behind them. The series contains monographs, lecture notes, and edited volumes in computational intelligence, spanning the areas of neural networks, connectionist systems, genetic algorithms, evolutionary computation, artificial intelligence, cellular automata, self-organizing systems, soft computing, fuzzy systems, and hybrid intelligent systems. Critical to both contributors and readers are the short publication time and world-wide distribution. This permits a rapid and broad dissemination of research results. The purpose of the 10th IEEE ACIS International Conference on Computer and Information Science (ICIS 2011) was held on May 16–18, 2011, in Sanya, Hainan Island, China, to bring together scientists, engineers, computer users, students to share their experiences and exchange new ideas and research results about all aspects of theory, applications, and tools of computer and information science, and to discuss the practical challenges encountered along the way and the solutions adopted to solve them. The conference organizers selected the best 20 papers from those papers accepted for presentation at the conference in order to

publish them in this volume the papers were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review
