there are two ways of rendering the first line of genesis one way is exoteric by christian bible interpreters the other kabbalistic divided into the rabbinical and the purely kabbalistic or occult method why christians sing never ceasing laudations to the mosaic jews who repudiated all the other gods preserved the most phallic and then most impudently proclaimed themselves monotheists

jesus ever steadily ignored jehovah and went against the mosaic commandments he recognized his heavenly father alone and prohibited public worship ralston skinner s numerical analysis of the first sentence of genesis on which hung in blind faith the whole christian religion shows that the bible was made to yield phallicism and that alone to know the full septenary significance of the primordial circle the pyramid and the kabbalistic bible must be read in the light of the figure on which the temples of india are built genesis cannot yield anything higher or more sublime than phallic elements the root and the cornerstone of its dead letter meaning anthropomorphism and revelation dig an impassable chasm between the material world and the ultimate spiritual truths the so called creation of genesis is not the primary creation and the elohim are not god not even the higher planetary spirits but the architects of this physical planet and of man s material body or encasement the elohim far from being supreme or even exalted powers in nature are only lower angels this was the teaching of the gnostics the most philosophical of all the early christian churches they correspond to the prajapatis of the hindus the fashioners of man s material and astral form only mathers censures the translators of the bible who have suppressed every single reference to the feminine form of deity with the occultists of the east the one and changeless parabrahman the absolute all the one and secondless cannot be conceived as standing in any relation to things finite and conditioned but what especially strikes the student of the kabbalah is the malicious persistency with which the translators of the bible have jealously crowded out of sight and suppressed every reference to the feminine form of the deity they have as we have just seen translated the feminine plural elohim by the masculine singular god they also concealed the fact that ruah spirit is feminine it then follows that the holy ghost of the new testament is a feminine potency in the hebrew as in the greek alphabet there are no distinct numeral characters and consequently each letter has a certain numerical value attached to it from this circumstance results the important fact that every hebrew word constitutes a number and every number a word the conclusion of mathers analysis of the elohim is that they are not one nor two nor even a trinity but an army of creative powers madame blavatsky names the true creators the first born or logos is not an emanation but an energy inherent in and co eternal with parabrahman the one thus it is not the one and unconditioned nor even its reflection that creates but only the seven gods who fashion the universe out of primordial matter vivified into objective life by the reflection into it of the one and only reality jehovah is at best the heavenly man or adam kadmon used by the self created spirit logos as a chariot a vehicle in his descent to the phenomenal world of gross matter the secret doctrine and the kabbalah are in perfect concordance in st paul s epistles the zohar is not a genuine production of the hebrew mind it is a veil over the secret doctrine the zohar is the repository and compendium of the oldest doctrines of the east transmitted orally at first and then written down in independent treatises during the captivity at babylon and finally brought together by rabbi shimon ben yohai toward the beginning of the christian era modern christianity is paganism pure and simple exoterically and transcendental and practical magic or occultism esoterically the solar trinity is not mazdean but universal and as old as man all temples in antiquity were invariably made to face the sun their portals opening to the east the last of the solar priests in europe was the imperial initiate julian now called the apostate he tried to benefit the world by revealing a portion of the great mystery of the

solar trinity and died for the same crime as socrates the roman catholic church stands accused not of worshipping under other names the divine beings worshipped throughout antiquity but of declaring idolatrous not only the pagans ancient and modern but every christian nation that has freed itself from the roman yoke only the philosophers who studied astrology and magic knew that the last word was to be sought in the occult forces emanating from those constellations that are the physical bodies of divine beings
